

Scientific project

ECTS

7

Mots clés

Data sets, Analysis

Description du contenu de l'enseignement

Objectif

analysing data from an actual data sets, using biostatistics and programming skills

Contenu

real raw data sets, collected from actual research programs, will be provided to students, who will work in small groups by applying statistical methods to extract and analyse relevant information from these sets. This is mainly a personal work, with on demand appointments with the coordinator when necessary .

Compétences à acquérir

Analysing data from an actual data sets, using biostatistics and programming skills

Modalités d'organisation et de suivi

Responsable:

Gwendal Restoux (AgroParisTech)

Langue

Anglais

Volume horaire

homeWork : 20h, ProfessTraining : 3h

Période et lieu(x) enseignements

Période:

semestre 3

Lieu:

AgroParisTech Claude Bernard

Mode de contrôle des connaissances

Personnal work, report
